PROJECTS

ENSURE CCTV APP | REAL TIME WEB APPLICATION

- In this project, We recognize the face of the person and match with the given data, if person's data isn't available an alert Email, SMS is sent to register profile. Also for the ATM service, if the ATM machine is displaced from the given range sound alerts will be given.

PORTFOLIO WEBSITE | FRONT END

- I have created a website using HTML, CSS, and JavaScript. It is one page website in that I have created different sections like header, services, projects, about, and contact info. It is an responsive website.

HOUSE PRICE PREDICTION

- The competition goal is to predict sale prices for homes. You're given a training and testing data set in csv format as well as a data dictionary.

SNAKE GAME

- The objective of this python project is to build a snake game project. In this python project, the player has to move a snake so it touches the fruit. If the snake touches itself or the border of the game then the game will over.
